

PLASTIX 
All your bottle needs

Faster lotion pump deliveries.
From our factory gates,
directly to your door.
(...in as little as 2 weeks)

"Standard" & "Slim"

Choose from 2 different switch models built on the same pump cylinder. The STANDARD is our bestseller model. It has a wide pear-shaped cap.

The SLIM model is a rectangular shaped slimmer version with rounded corners. Mainly delivered in black color.

STANDARD

The STANDARD 28/410 is stocked in white color for rapid 24h deliveries. But you can order it in any color as well.

Encapsulated Spring

Besides the switch-to-open motion, these two models have an encapsulated spring that prevents fluid from contacting the steel spring inside.

STANDARD & SLIM have a broad telescopic neck below the cap, giving it a robust feeling. Dosage is 1,5ml.

SLIM

The SLIM 28/410 most popular color is black and we strive for keeping it in our ready-to-ship warehouse.

Switch-To-Open
Thick Telescopic Neck
Encapsulated Spring
Dosage 1,5ml

"Screw" & "Stork"

Two twist models built on the same threaded release system. The SCREW has a unique leaf-shaped head with sloping edges. Mostly sold in white or black.

The STORK model has elegant long lines, often sought for in light cosmetics. Looks best of all with translucent finish.

SCREW

The SCREW 28/410 is most popular in white color, yet the special shape of it also looks great in bottle matching colors.

Low profile packaging

The Twist-to-open motion allows for tight packaging with secure locking while not in use. In unscrewed position it has a "slimming effect" with a long delicate neck.

SCREW & STORK offer a large 2,0ml dosage and have a more classical lotion pump look. Low profile in transportation - high & slim unlocked.

The STORK 28/410 in translucent color is perfect for transparent PET bottles.

Combos With Pump & Bottle

Be smart and combine transportation of both pumps and bottles. This reduces waste and pollution.

"Round Shoulder" Bottle & Pump

The HDPE half liter bottle with rounded shoulders combined with our STANDARD lotion pump is the greatest deal you can get - form, quality, speed and price!

ADD COLOR

Good looking with all pumps

Our popular Round Shoulder bottles go perfectly well with all of our Lotion Pumps. Timeless design and high quality make pump & bottle combos the most cost effective choice.
